Budget Proposals Water - Wastewater 2016 – 2017 after some discussion concerning the SRF loan payment and water sales by the KUFD, the Board decided to take the proposed budget under advisement.

Executive Director Pitalo reminded the Board of two future projects: The first will be a nutrient removal process which will be required for all HCUA treatment plants with the newer plants being ready and the SRWWTP requiring the most costly upgrade. Second as the flow increases at the SRWWTP as the plant reaches its 80% flow capacity, a set of drawings and plans are required for expansion of the plant. Both of these items will be very costly to the HCUA and should be noted for future expansion and required upgrades.
